

GHKC- GreEnv Contest 2018 - 19

Gateway to World Class Quality, Environment, Energy and Safety, Good housekeeping involves every phase of industrial operations. It is much more than mere cleanliness, in the sense that it promotes Optimization of resources and Green Productivity. Therefore, it makes sense to coalesce peerless perennial BPC **Good Housekeeping contest (GHKC)** with **GreEnv (Green Environment)**. It is the combined application of appropriate environmental, energy, quality and safety management tools, techniques and technologies that reduce the environmental impact of an organization's activities, products and services while enhancing goodwill, profitability and competitive advantage.

Rooted in the concept of doing more with less, this **GHKC- GreEnv Contest 2018 - 19** will broadly look into the efforts & progress being made in following five dimensions of developments:

1. Available/Availing/Implementing Management Systems and Programme, using ISO 14001/EMS, ISO 50001 Energy Management, Total Productive Maintenance, Total Quality Management: ISO 9001. Implementation of Occupational Health and Safety Policy: OHSAS 18001 / ISO 45001, etc.
2. Green Productivity Techniques, using 3Rs, Housekeeping / 5s / Kaizen, Resource Conservation, Product Improvement etc.
3. Water resource management, emission management, waste management, at source, proper treatment and recycling;
4. Energy Conservation & Energy efficiency by enhancing the use of renewable resources to reduce costs and emissions. Clean development mechanism, as a tool to reduce greenhouse gas emissions;
5. CSR Activities or leads to sustainable development eliciting goodwill & respect from the society.

OBJECTIVES OF THE GHKC- GreEnv Contest 2018 - 19

- Provides a Platform for the sharing of the best Practices.
- Provides an Opportunity for Environment, Energy, Quality & Safety Practitioners to share ideas, experiences and achievements towards the improvement of working Conditions leading to better & greener productivity.
- Recognizes exemplary organizations in enhancing operation effectiveness in better Working Environment.
